## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, drawn to a modified polymer particle.

Group II, claim(s) 7-12, drawn to a polymer-base packing material.

Group III, claim(s) 13-20, drawn to a method for producing a modified polymer particle.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 1, at least, is anticipated by or obvious over EP 1132737. Consequently, the special technical feature which links the claims, the modified polymer particle, does not provide a contribution to the prior art, so unity of invention is lacking.

3. During a telephone conversation with Bruce E. Kramer on 6/15/07, a provisional election was made with traverse to prosecute the invention of Group I, claims 1-6.

Affirmation of this election must be made by applicant in replying to this Office action.

Art Unit: 1713

Claims 7-12 are withdrawn from further consideration by the examiner, 37

CFR 1.142(b), as being drawn to non-elected inventions.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Pinschmidt, Jr et al. (USPN 5,155,167).

In col. 3, line 53 to col. 4, line 27, Pinschmidt, Jr et al. teach a polymer particle containing partially hydrolyzed ester functionality and amide groups (the same as carboxyl groups capped through amidation).

Thus, the requirements for rejection under 35 U.S.C. 102(b) are met.

7. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Shimbo et al. (EP 1132737).

Art Unit: 1713

In ¶ 18 and 43, Shimbo et al. teach a polymer particle containing partially hydrolyzed ester functionality and carboxyl groups that have been capped through amidation.

Thus, the requirements for rejection under 35 U.S.C. 102(b) are met.
